STATISTICAL SECTION

NOTES

1. Publication of the statistics on hire purchase credit has been suspended because of the irregularity in the number of companies reporting. Data available to us can be released in consolidated form to interested persons.
2. A new statistical series has been included for Enugu Bankers' Clearing House.
3. The statistics of holdings of treasury bills outstanding has been revised to specify total federal and regional government holdings.
4. Analyses of commercial bank loans and advances are now available monthly beginning with January, 1966. Loans to 'Transportation and Communications' and 'Personal and Professional' categories are now available and are published beginning from January, 1966. From the same period, loans to finance agricultural exports are classified under 'General Commerce' and call money outside the Central Bank is included in 'Credit and Financial Institutions'.

Notes: 1. All figures, except those of the commercial banks, are gross.

2. Funds specified by expatriate banks as local capital are no longer regarded as part of external liabilities, and, therefore, no longer figure in the determination of the net external position of the commercial banking system.

3. Nigeria's I.M.F. position has been included from April, 1963 when the par value of Nigerian pound was declared with the Fund.

4. 'Other semi-official' consists of local governments, development and other statutory corporations and the universities.

5. Holdings of the federal government have been adjusted to exclude sinking funds.

6. Holdings of the regional governments have been adjusted to include sinking funds externally invested, but held against internal loans.

Note: (1) Data on capacity exclude private plants; total generation include energy purchased by E.C.N. from companies other than N.E.S.C.O.

(2) Energy lost in transmission and those used by E.C.N. and N.E.S.C.O. account for the difference between total generation and total consumption.

(3) Percentages are in relation to total generation.
